EMBARKATION OF TROOPS.

Mobile, Ala., June 1.—The inactivity is at last broken. The second of the fourth army corps are ready for embarkation. The whole of the troops concentrated here look for the order "on to Cuba" at any hour.

Within twenty-four hours the Fifth cavalry will embark on transports and their objective point will be, according to the men of the regiment, Porto Rico.

Officers still maintain the strictest secrecy regarding the destination of the troops.

During last night greater activity prevailed in the quartermaster's department, and numerous loads of supplies are ready for shipment as a result.

Monday night the Matamoros, the largest transport out of the six now in port, coated in a hurry and moved her berth to the wharf, where passenger embarkation usually takes place. She is fitted up for infantry only.

When the Dupont came in Monday it was given out that the fast torpedo boat needed repairs, but an inspection of the vessel in dry dock did not disclose any material damage, and it is almost a certainty that she is here really for the purpose of assisting in conveying the troops to Cuba. This is given color by the fact that the Dupont was not alone up to the time she arrived off Sand Island Light.

Two large vessels were seen cruising around the outside after the Dupont came into the bay and an investigation by a tug boat captain discovered them to be gunboats.

COIN FOR PATRIOTS.

Washington, June 1.—Paymaster General Stanton of the army, authorizes a specific denial of the reported negotiation for the acquisition of large numbers of Mexican dollars for the payment of troops sent to the Philippines.

The report that this was contemplated probably arose from the fact that such a suggestion had been made to the war department.

The paymaster general asserts that there is no desire on the part of the government to pay its soldiers in depreciated coin, but that they will be paid in gold and silver of the United States.

FRIENDS ACROSS THE SEA.

Washington, June 1.—Ambassador Hay informs the state department the following resolution was unanimously adopted by the Churchmen's union of England May 11:

Resolved, That this meeting of liberal churchmen extends its fullest sympathy to the president and citizens of the United States in their effort to secure good government in Cuba and trusts that in future years the ties of brotherhood between America and Great Britain will be strengthened.

REPORTS OF BATTLE UNCERTAIN.

Nearly All the News Comes From Spanish Sources and Has Not Been Fully Confirmed.

SCHLEY HAS CERTAINLY WON A VICTORY.

Cape Haytien, June 1.—Official reports of the battle of Santiago say that Schley silenced three forts, including Morro Castle, and that he did great damage. The American squadron withdrew, however, when the Spanish ironclads injured the auxiliary cruiser St. Paul, which led the light in the mouth of the harbor while the American ironclads bombarded the forts.

The Americans lost few or no lives.

Kingston, Jamaica, June 1.—Advices from Havana last night state that Commander Schley attacked the fortifications at Santiago at 10 o'clock yesterday afternoon. The cannonading was terrific, but the result is unknown.

These advices which are all of Spanish origin admit that Schley forced the harbor and leveled the Punta Gorda forts which are opposite Morro Castle.

Schley's fleet was the target of a terrific fire from the forts, which was answered by the American fleet with tremendous effect.

Schley paid most of his attention to the Spanish fleet, using his guns with great effect. The damage done to the Spanish fleet is unknown.

At five o'clock the firing slackened slightly, but was still continuing as this report was being called.

A BIG CAPTURE.

Key West, June 1.—It is reported here today that the auxiliary cruiser St. Paul has captured the Spanish ship Alfonso XIII after an hour's hard fighting.

The Alfonso will be the best prize of the war.

MAY SEIZE HAWAII.

SPANISH CRUISER SUNK.

London, June 1.—Our cable from Havana today says that the battleship Texas sank a Spanish cruiser in Santiago bay, but no particulars are given.

WHERE ARE THEY GOING?

Washington, June 1.—Gen. Miles wires that the soldiers are embarking at Tampa as rapidly as inspected.

EXPOSITION OPENED.

Omaha, Neb., June 1.—The Trans-Mississippi Exposition was formally opened today with imposing ceremonies. Large crowds were present and the opening parade was the greatest event of the kind in Omaha's history.

THE MANILA EXPEDITION.

Washington, June 1.—Immediately on the arrival of Maj. Gen. Merritt at Manila he will set about defeating the Spanish army in the Philippines, and then he will put into operation a system for collecting revenues which will be recommended to the president in a few days. It is to be operated by army and navy officers under the joint direction of Maj. Gen. Merritt and Rear Admiral Dewey.

Maj. Gen. Merritt will take two additional regiments of the regular army on the next expedition to the Philippines—the Third artillery and the Fifth infantry. Sixty engineers will also take 400 submarine mines for use in the harbor. The commander will be ready to sail this week and the China and Colon next week.

TROOPS FOR CUBA.

Washington, June 1.—Secretary of War Alger today notified congress officially that 20,000 troops would go to Cuba at once to be followed by 50,000 more just as soon as they could be transported.

SPANISH REPORTS.

New York, June 1.—Spanish reports from Havana say that Schley did no damage in the bombardment of the Santiago forts yesterday.

SPAIN EXCITED.

Madrid, June 1.—In spite of the fact that the Spanish claim the battle yesterday at Santiago resulted in a Spanish victory, Spain is nevertheless greatly excited over the news.

Great fears are expressed in official circles that mobs and riots may be the result.

If it should turn out that a big American victory has been won, the gravest results are feared from the populace.

Spain is upon the verge of a revolution, which seems to be put off from day to day, but a crushing Spanish defeat will hasten the crisis.

Washington, June 1.—Congressman Settle today made a brilliant speech in the house favoring the removal of the disability of ex-confederates. He spoke for a united country.

STRIKERS IN CAMP.

They Have Given the Colored Laborers Until Today to Leave—Much Excitement There.

Nearly One Thousand Miners at Cartersville, Ill.—Clash Expected at Any Time and Serious Trouble Is Probable.

The impending clash between striking miners and negro miners at Cartersville, Ill., has not yet occurred, but is likely to at any moment. The St. Louis passenger train which arrived this morning, had no difficulty, although the conductor expected to be overhauled by miners.

Advices today are that there are between 800 and 1000 striking miners in and around Cartersville and have gone on record as saying that the colored miners imported from Tennessee to work the Big Muddy mines must quit work by tomorrow or "take the consequences." What they mean by "take the consequences" they will not say in plain words.

A clash between the strikers and workers is likely to take place at any time. General Bradley, of Coffeeville, who led the strikers at Belle ville last August, telegraphed some of his friends last night that he would arrive there in a day or two.

The strikers are very bitter against General Manager Brush, of the Big Muddy mine. Many of the men who have quit work are Americans and are much more dangerous as adversaries than the foreigners who usually threaten during coal strikes.

They resent the filling of their places by colored men for one thing, and while they are far easier to reason with than the foreigners, they are more explicit and determined in their demands.

The negro miners are armed with Winchester rifles and are corralled near the mines, about a mile from town.

The strikers who come from around Cartersville slept last night in any place they could find that offered shelter. The Cartersville miners who had square room took in as many as their houses would hold.

YESTERDAY'S BATTLES.

The reports of the battle that took place yesterday at Santiago are very meagre.

It seems that Schley entered the bay and silenced the Spanish forts, but it is not clear whether he attempted more than to silence the forts preparatory to a battle with the fleet later.

It is said a Spanish cruiser was sunk and the Alfonso XIII was captured by the St. Paul.

This, however, is not confirmed. The reports all come from Spanish sources, except from Cape Haytien, which may have had a report from Schley, though this is very improbable.

It is evident, however, that Schley has struck an important blow towards the capture of Santiago and the Spanish fleet.

The Washington dispatches yesterday indicate that the government did not expect a battle so soon, but at the same time it is known that Commander Schley had orders to use his own judgment in making the attack. Schley had been advised to count on the entrance to the harbor if possible, and thus destroy the Spanish mines. He may have done this or he may have learned that the harbor was not mined.

If this report be true, and Schley has run the harbor under the guns of Morro Castle, he has out-Deweyed Dewey.

The Spanish fleet is inferior to Schley's squadron, but it is well equipped with heavy guns, though but one of the ships is steel clad.

The Spanish ships are better fitted for offensive work than for resisting the fire of our big guns.

SANTIAGO HARBOR.

It is known that Schley has in his squadron the battleships Iowa, Massachusetts and Texas, the cruisers Brooklyn and Matibela, two gunboats, and one or two auxiliary cruisers. Probably his squadron has been strengthened by the addition of other ships within the past 36 hours. His ships are superior to those of the Spanish fleet. Only four of Cervera's ships are rated first class—the Vizcaya, Quintero, Christoval Colon and Maria Teresa—and it is believed that they are not in good fighting trim. The guns of Schley's squadron are heavier than the Spaniards.

Dr. Hyatt, was the United consul at Santiago, returned to this country a few days ago. He says that, in spite of the elevation of the land at the mouth of the harbor of Santiago, the ships of Schley's squadron will be able, after reducing Morro castle, to throw bombs overland and drop them on the Spanish fleet at anchor in the basin before the town, four miles as the bird flies from the sea.

The water off the port of Santiago is so deep it cannot be mined. Ships of the greatest draft may sail close in under the shore.

If the right elevation can be had with Schley's guns the old fortress will be blown into a cloud of ancient dust in a very short time.

It was built in 1631, and its modern improvements are few. Even its guns, according to Consul Hyatt, are of the old style, with the smooth bore.

Other new and more formidable batteries may have been planted in the neighborhood of the harbor mouth since Dr. Hyatt left Cuba, for at that time, he says, surveys had not been completed for them. He doubts, however, if many heavy guns were at hand to mount on the new batteries.

The only railroad running out of Santiago, except two short roads owned by mining companies, goes to San Luis, 20 miles out in the country. Beyond that there is an impassable range of mountains.

STRIKERS IN CAMP.

In a large hall over Thompson's school many of the men sleep. The strikers claim they have arms of no kind. The sheriff and a posse of 500 men are in the town. Secretary Brush has sent some committees from the town to the strikers.

W. T. Morris, of Duquoin, member of the state ex-miners board of the Illinois mine workers' organization, is there now, and as the day grows on his influence can be seen at work among the miners for a peaceful settlement of the trouble.

He does not anticipate a collision between strikers and the men at work and says there will be no difficulty if some of Manager Brush's men do not carry out a threat to fire upon the strikers at the first chance. Morris says that Brush is now working at a bigger expense than if he were paying the scale demanded of him, and that he will soon see that the best thing for him to do is to get rid of the Tennessee men and take back his old hands.

A federal injunction is standing against Morris, restraining him from assembling and addressing crowds upon the highways of Illinois, but he says that he is confident that if he has access to and could address the men now in the Big Muddy, he could win them over to his side of the controversy, but it is impossible to see the men at work. The shift is patrolled and the strikers do not visit the town. The town is full of saloons, but there is no drinking going on. Several hundred strikers are filling in the main street, but all are good-natured, and no attempt is made to disperse them by the village officials. A crowd of other miners, or, as the strikers refer to them, "new troops," arrived yesterday afternoon from Duquoin.

WILL BE FOR ANNEXATION.

Washington, June 1.—Mr. Grover, chairman of the house republican caucus, will call a caucus within the next few days to take action upon the joint resolution for the annexation of Hawaii.

Several republicans said this morning that the caucus would undoubtedly commit the party annexation.

They admitted, however, that quite a number would decline to attend or be bound by its action if they should attend.

THE FLAG GOES BY.

By Henry H. Wood.

Hate off!
Along the street there comes
A blast of bugles, a rattle of drums,
A flash of color beneath the sky.

Hate off!
The flag is passing by.

Blue and crimson and white it shines
Over the steel-tipped, ordered lines.

Hate off!
The colors before us fly.

But more than the flag is passing by.

Sea fights and land fights, grim and
great.

Fought to make and to save the
state.

Weary marches and sinking ships;
Cheers of victory on dying lips.

Days of plenty and years of peace;
March of a strong land's swift increase.

Equal justice, right and law.
Stately honor and revered awe.

Sign of nation, great and strong.
To ward her people from foreign wrong.

Pride and glory and honor, all
Live in the colors to stand or fall.

Hate off!
Along the street there comes
A blast of bugles, a rattle of drums;
And loyal hearts are beating high.

Hate off!
The flag is passing by.

A WAR POET.

Rev. Gilbert Dobbs, formerly pastor of the First Baptist church here, has developed into quite a war poet. He is now pastor of the Franklin, Va. Baptist church, and the following are from his gifted pen:

Immortal Dewey—foremost of the brave,
That ever sailed the sea, the noble
flag.

Thy calm self-poise when to noisy
war.

The war-torn spray of far Manila's
wave.

Paid tribute to thy glory—the Spanish
grave.

Thy thundering guns crimsoned the
yellow flag.

Their echoes breaking o'er the distant
crag.

The voice of freedom to the Eastern
Slave.

The Oriskany of that early May
morn.

The God of war kindled to the
deadly flame.

Of him, upon the altar of whose heart
Burned hotter love for country's
flag and name.

And of those Styx-washed heroes,
whose brave part
It was to glorify the land of the
free-born.

GILBERT DOBBS.

ON THE FRAY.

On to the fray, boys, on to the fray,
Away, away.

Where southward boom the Spanish
guns.

From castled heights, and South-
land's sons.

Are bleeding, death the pitiless rain
Of shot and shell, on bay and main.

On to the fray!

Remember the Maine!
Remember the slain!

And on to the fray, boys, on to the
fray.

On to the fray, boys, on to the fray!

Care not to stay!

Reck how the great Almighty Eye
Ne'er sleeps, but vigil keeps, on high.

O'er heroes brave, that dare to die
For suffering humanity.

On to the fray!

Remember the name—
WORTH BATTLE—our fame!

And on to the fray, boys, on to the
fray!

On to the fray, boys, on to the fray!

The dawn of day.

Of freedom, in yet a little while
Shall ride o'er the Crescent Isle.

Fresh glory for the stripes and stars,
Descending from the god of wars.

On to the fray!

Be true to your God,
Be true to your blood!

And on to the fray, boys, on to the
fray!

GILBERT DOBBS.

ONE VAST REPUBLIC.

A Startling Suggestion by the Retiring Minister From Brazil as to This Hemisphere.

Senhor Mendonca, in a speech to the President, expressed the hope that all America may unite in one Federation.

Washington, June 1.—Senhor Salvador de Mendonca, who had represented Brazil in Washington in the capacity of minister since 1881, some days ago presented his letter of recall, preparatory to being transferred to Lisbon, Portugal. The ceremony, which is usually little more than an idle form, was in this case remarkable from the magnificent tribute paid to our great republic by Senhor Mendonca, who, having occupied the post of consul general of Brazil at New York for many years preceding his accession to the ministry, has had more abundant opportunity for just criticism than falls to the lot of most diplomatic representatives.

The minister said: "Mr. president, buying that your excellency may concur in the belief, expressed by my government that I have in fulfillment of its instructions, discharged the duties of my mission in an agreeable manner to your government, and adding to the expression of the best wishes of the president of Brazil for your happiness and for the prosperity of your country, my personal good wishes, I might consider closed my official address."

"But friends do not part in the solemn hour in which the Nation is called to arms, with diplomatic forms merely. Moreover, my debt of gratitude to your people and government for the treatment which I have received at your hands during a century is so great that I cannot take my leave without expressing to the first citizen of this mighty republic my heartfelt appreciation of your benevolence toward a student of your institutions and an admirer of the high character of your Nation."

"Opening your country since the Colonial times as a land of refuge, establishing your commonwealth on the solid foundation of the freedom of conscience, giving to the world the principles of the Declaration of Independence, affirming by the constitution of the Union and by the abolition of slavery, that this continent was thenceforth consecrated to liberty, your people has come to the front rank as a powerful factor of modern civilization. Fearless before the strong, magnanimous toward the feeble, deeply convinced that justice and right are the corner stones of the state, and the fairest measure of international dealings, industrious, intelligent, law-abiding, and peace-loving, your nation can well be proud of its achievements, and no one has had a better opportunity than I to satisfy myself, by a careful observation of men and laws of your steady advancement and progress."

"I have seen your country in its days of joy and sorrow. I saw, at the celebration of the centenary of your independence, the pastmaster in the art of war, and the nation did not depart a moment from the confidence in its high destiny."

"I have visited the different regions of your broad land; I know the active men of the East, the open-hearted inhabitants of the West and the chivalrous Southerners; I have seen my fortune to meet the statesman, the scientist, the artist, the manufacturer, the farmer and the workman. Their common ideal is the honor and greatness of their country."

"I have trod the modest paths of the land which lead to the great plains of the West, where the founder of Hollywood, where Monroe rests, Oak Hill where Blaine roared, I have listened to the voices of the wind passing through the branches of the oaks, which cast their shade over their tombs, and learned the secret of your greatness. May yours be an inspiring example to the whole continent."

"It has been my aspiration before leaving your country to sit again at a table around which all the American republics would re-unite, on a more solid basis, the agreement outlined by the unratified treaty of April 29, 1890, distributing the responsibilities of the policy of Monroe, by members of the compact, as it is due to their sovereign character. Blessed be the day which shall witness the meeting of such a congress, the first step for the establishment of an American diet, a high court of international affairs of our continent."

"Whenever the duty to my beloved country will call me, I can assure you that my heart and sympathy will be with you noble people and with the standard bearer of the republican America who is advancing the outpost of human freedom into the last interdependencies of the past."

On account of the opening hall at Clark Hotel, Crest Springs, the Illinois Central Railroad company will sell tickets from Paducah to Crest Springs and return on June 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 1900. Tickets good returning on any train of June 11.

WEST POINT EXAMINATION.
It Will Be Held Saturday of This Week at the High School Building, This City.
There Will Be at Least Two Competitors From Paducah—Several Others May Enter the Competition

Saturday morning about 9 o'clock there will be at the high school building a number of bright, ambitious young men from various portions of the First congressional district. They will be there to stand an examination for the appointment to a cadetship at West Point. The young man receiving the best per cent. will be appointed by Congressman Wheeler.

There are at present but two young men of Paducah who will enter the contest. These are Mr. J. Henry Orme, and Mr. James Caldwell. The latter is now at the state military college at Lexington, and will be home in a day or two. Mr. Dick Scott is mentioned as a probable applicant.

As to the others, it is unknown how many there will be, as there are two examiners besides Supt. Geo. O. McCann, of the Paducah public schools. Some of the young men who have signified their intention to be here at the examination, however, are: Thomas Jennings, of Hardwell, and a young man named Robinson, of Graves county.

As has been stated, no one but the sons of Bryan democrats will be eligible to the contest, in pursuance of instructions from Congressman Wheeler.

THE THIRD GOES SOUTH.
Paducah Boys, With the Others, Go to Chickamauga—They Will Remain There Some Time.

May Be Third Lieutenant in all the Companies—Battalion Formation—Latest Military News.

Lexington, June 1.—The Third regiment left this afternoon at 4 o'clock via the Cincinnati Southern for Chickamauga.

Col. Smith made final arrangements with Col. Murphy yesterday afternoon, as the road had the contest. The first section consisted of one horse car, one baggage car, one sleeper and fourteen coaches.

The second section left fifteen minutes after this and consisted of three baggage cars, fourteen coaches and two Pullman sleepers. The trains will arrive at Chickamauga at daylight. The Third regiment has been located, and it is just eight miles from the station to the camp where they will pitch their tents. The whole distance is filled with soldiers.

Camp Bradley, Lexington, Ky., June 1.—Washington is the destination of the First regiment. This has not been officially announced, but it comes from a source which can hardly be doubted. The legion would have preferred a Southern assignment.

Gov. Bradley has received from Adj. Gen. Corbin ordering that the Kentucky regiments be recruited to 100 enlisted men to a company. This will not detain the First and Third regiments at Lexington after they are mustered in, it is said, but the additional recruits will be sent on to whatever places the regiments have been ordered. It is understood that this order will necessitate a third lieutenant to each company. There is likely to be a lively scramble for these places.

Frankfort, Ky., June 1.—Capt. Ballance, U. S. A., mustering officer for Kentucky, came here yesterday to company with Adj. Gen. Collier, and the two were closeted with the governor morning and evening. The governor's office has to do with a still further protest against the order of Secretary Alger limiting Kentucky to four big regiments instead of five smaller ones.

Capt. Ballance said, after leaving Gov. Bradley's office: "It will be very difficult to recruit companies to 100 men. I don't know whether there will be a change in the present orders. The mustering of the First regiment begins tomorrow."

The larger proportion of the governor's callers here today are men who want to offer companies for the present and next call, and who don't like the idea of using themselves or their men as fillers.

Hon. D. R. Murray, to be lieutenant colonel of the new Fourth regiment, was here yesterday, and left for Carter county. He says that all the companies of the new regiment are practically made up and ready to move to Lexington next week.

THIRD REGIMENT.
Battalion Formation of the Companies—Preparing to Move Today.

Camp Collier, Lexington, Ky., June 1.—Major Bryant has returned from Frankfort. He has been detailed to recruit the Third regiment to the required number. He has sent out recruiting officers and issued call for volunteers.

The following arrangement of companies has been made: First battalion, Major Saffarman, Adj. Simon; company A, Capt. Burdfield; company B, Capt. Davis; company C, Capt. Bailey; company D, Capt. Beckham.

Second battalion, Maj. Watt, Adj. Sael; company F, Capt. Feland; company G, Capt. Reynolds; company H, Capt. Clark; company I, Capt. Brewer.

Third battalion, Maj. Bryant, Adj. Sharpley; company K, Capt. Howard; company L, Capt. Atkinson; company M, Capt. Koeva; company N, Capt. Gaden.

Proposals for completing the new high school building at Paducah, Ky., will be received up to 12 o'clock, July 1, 1909.

Plans and specifications can be seen at the office of B. H. Davis, architect, Paducah, Ky., where all desired information will be given.

Building is to be completed by Sept. 1, 1909. J. M. Byrre, U. S. Wagon, J. R. Smith, Commis.

Incandescent lamp globes suitable for system for sale at McPherson's Drug store.

NEW YARD MASTER.
Mr. Bob McCann Will Go on the Road and Have a Freight Run.
Mr. Pason Smith Will Succeed Him About the 10th—An Important Change.

An important change in local railroad circles will take place about the 10th, inst. Mr. Bob McCann, who has been yardmaster of the Illinois Central for several months, has resigned, and his successor will be Mr. Pason Smith, of Louisville, a brother-in-law of Supt. W. J. Harahan, and who has been the latter's chief clerk at Louisville.

Mr. McCann will be transferred to a freight run, and will make his first trip about the 10th. He is very popular among the railroad men.

Last night two negroes stopped in front of the Jake Biederman Grocery company's establishment, on South Seventh street. The younger one, a boy, went inside, stole several small articles and ran out the back way.

The negro out in front was arrested, and proved to be Wm. Marion, of Hopkinsville. He was taken to the city hall by Officer Gray. The thief was pursued to Eden's hill by Officer J. R. McCane, but escaped.

The man arrested claimed in court this morning that he didn't know who the other man was, and was released and ordered to go back to Hopkinsville.

Gus Jackson, for drunkenness, was fined \$1 and costs.

Wm. Anderson, charged with depositing a defunct canoe in an alley was dismissed.

The warrant against Jim Webb colored, charged with beating his wife was fled away, as Webb, who was yesterday released on his own recognizance, failed to show up his \$25 recognizance was declared forfeited.

ANOTHER BIG CROWD.
LaBelle Park Crowded Again Last Night.

LaBelle park was packed last night, and the audience was vastly pleased with the excellent performance given by the company. The people have found out that the management means business, and the shows it will give throughout the season will be up-to-date and strictly first class.

Last night the performance went smoother than the night before, and Messrs. Diamond, the Harpist, and Reynard, the ventriloquist, won new laurels, and the others received their share of the favors.

The street car facilities could not be had.

The indications are for a crowded house every night this week.

WILL COME HERE.
Paducah Is to Get a Big Tennessee Dry Goods House.

It is practically settled that the Hayes & Foster Dry Goods Co., of Trenton, Tenn., is to come to Paducah. The proprietors have been in correspondence for some time relative to the removal, and now the firm has announced that it will be here about the latter part of the summer. It is already buying its goods for the Paducah house, and uses letter heads dated Paducah.

It will be one of the largest dry goods concerns in this part of the state. The company is now seeking a location, and may have an elegant building erected by local capitalists.

MECHANICSBURG ROBBERY.
A Watch and Some Money Was Stolen.

The police have today been at work on a case of grand larceny, reported from Mechanicsburg.

A young man named Duon, and a companion roomed together, and while away some one stole a watch from one of them and about \$15 in money.

The police think they know who is guilty, but could not find him.

BUSINESS CHANGES.
Col. Bud. Dale will set supper at the New Richmond hotel tonight, having today assumed charge. The change in proprietorship was detailed in yesterday's paper.

NAME TO BE CHANGED.
Second Kentucky Infantry Will Be Known as 178th K. V. I.

Camp Thomas, Chickamauga, Ga. June 1.—From present indications the originally Second Kentucky Volunteers will be lost in merging it into the regular army of the United States.

Lieutenant Collier, the regimental adjutant of the fighting Second, stated that he had been instructed to make preparations for a change of the regiment's name, which will probably be the 178th Regular Volunteer Regiment.

Here at camp General Brooke has so placed the various regiments as to have them arranged in brigades and divisions, according to this arrangement Kentucky troops will fight shoulder to shoulder with the Eighth, Ninth and Sixty-ninth New York, the Second Missouri and Second Wisconsin regiments.

The following dispatch was received by the St. Louis today:

"Company K is in excellent health and spirits, belonging to the first battalion, Maj. Saffarans, Capt. Davis commanding. Privates all are ready to move. Joe Smith will go with us. The company is not yet equipped."

BRYAN GOING TO WAR.
Lincoln, Neb., June 1.—W. J. Bryan yesterday received a message from Gov. Stephens of Missouri, offering him the colonelcy of a new Missouri regiment.

Mr. Bryan did not accept at once, but wired that he could not ask a better command than that composed of Missourians.

Mr. Bryan said privately that he still had hopes of commanding a Nebraska regiment. If by any deliverance act on the part of Washington officials he is deprived of this command he will then go to Missouri and lead that regiment.

"In any event," he added, "I propose to serve my country in spite of any injustice from official sources."

BOG DAYS

They Got Here a Little Early This Season.

Today the city hall was a scene of unusual activity. Mayor Lang did not show up until late, probably to avoid the rush.

Almost at sunrise the small boy began to struggle in with some helpless canine dangling at the end of a rope. As the morning advanced, they came in pairs and trios, and the smiling city marshal gave them a quarter for each "pup" and told them to bring in all they could find.

The shed near the police court room was soon filled with struggling, snarling dogs, and there was a rush in other quarters, also, for City Clerk Patterson was writing certificates as rapidly as he could. Up to the time Marshal Collins decided to begin war on the dogs, there had been licenses paid on only half a dozen or thereabout. This afternoon 150 or more licenses had been paid, and doubtless many more will be paid by tomorrow, and as soon as the owners of some of the dogs find out that their pets are in the pound.

Marshal Collins laughingly said this morning that the first thing he did was to send around to the homes of the city officials and councilmen. He found a dog at the house of each, and two at some, he alleged.

Judge Sanders here displayed a tag and tax receipt, and Prosecuting Attorney Wheeler Campbell declared he had paid his tax, but left the receipt at home.

In a day or two the dogs impounded and not called for will be drowned.

If your dog is missing, look for him at the city hall before it is too late.

Meanwhile Clerk Patterson will continue to rake in the wheelbarrow and Marshal Collins to pay the bill.

BUILDING BICYCLES.

Wheels are easily built on paper or in the imagination. Any repair shop can assemble the parts of wheels obtained from jobbers, and call it wheel building.

We construct a wheel to suit the customer, from the rough materials, brazing, enameling, nickel-plating and assembling the finished wheel.

Call and see how we do this.

STREET ROLLER IN.

This morning the street roller was repaired sufficiently to build a fire in it, and it was then run off Broadway and placed where it could not block up the principal streets. It will not be used again by the contractors for a few days, perhaps.

Yesterday afternoon three country men called on Mayor Lang, and one of them said:

"I seen that thr thing down thar smokin', an' 'lowed you wanted some feller to run it, so I come up to git the job."

"What experience have you had?" the mayor inquired.

"Wal, I run a thrasher engine for nigh on to three years," was the reply.

GREAT ENGINEERING FEAT.
The east pier of the big bridge of the Northern Pacific railroad at Bismarck, N. D., weighing over 3,000,000 pounds, was moved from its

foundation Sunday morning and slid on rollers to a new foundation, a distance of nearly four feet. This is the first engineering feat of the kind ever accomplished.

The pier was 60 feet high, 30 feet wide and 12 feet in diameter, built of granite. The time occupied in moving the pier was less than a minute. The engineers were assisted by a slide of earth, which all the entire mass along the steel rollers provided for that purpose.

Under Palmer House. Open evenings 7 to 9. Telephone 382.

The work of preparing for the movement occupied over eight months. The moving of the pier was necessary for the fact that it was displaced by the sliding of earth beneath the foundation, and to correct the difficulty it was necessary to build the new foundation and move the pier back to the place from which it had been moved.

The work was done entirely without interrupting traffic, and trains will run as usual.
